

Errata et addenda

Correction and additions for:

NÄSSIG, W. A., & OBERPRIELER, R. G. (2008): An annotated catalogue of the genera of Eupterotidae (Insecta, Lepidoptera, Bombycoidea). — Senckenbergiana biologica, Frankfurt am Main, **88** (1): 53–80.

1) On page 67, the citation of the type species of the genus *Sangatissa* MOORE 1883 must be corrected to:

Sangatissa MOORE 1883(: 143), type species: *Dreata subcurvifera* WALKER 1865(: 375).

2) In the paragraph “Genera excluded from Eupterotidae” (pp. 68–70), the following genus should be added (and also in the checklist [p. 71] under the same heading):

***Thermojana* YANG 1995**

Thermojana YANG (in YANG & CHEN) 1995(: 367), type species: *Thermojana sinica* YANG (in YANG & CHEN) 1995(: 367), by monotypy (ICZN 1999: Art. 68.3) (in Eupterotidae). — SCHINTLMEISTER (2008) (in Notodontidae).

Distribution: China, Zhejiang, Mt. Baishanzu (27.7° N, 119.1° E, 1500 m) (YANG & SHEN 1995).

Notes. This monotypic genus, described from a single ♂ specimen, was placed in Eupterotidae by its author but has escaped the notice of subsequent studies of Asian bombycoids. In BMNH (2007) *Thermojana* was listed without family assignment. The description and drawings of the species are poor but the genitalia and fw. apex venation as illustrated do not conform with those of Eupterotidae, and the genus was recently

recognised as belonging to Notodontidae and synonymised with *Gangarides* MOORE 1866 (SCHINTLMEISTER 2008).

3) In the “Acknowledgement” section, the following should be added:

Alexander SCHINTLMEISTER, Dresden, kindly provided relevant information from his new book (unpublished at the time of writing the Errata). We thank Ian KITCHING for alerting us to these Errata.

4) The following citations have to be added in the “References” section:

SCHINTLMEISTER, A. (2008): Notodontidae. — *In*: Palaearctic Macrolepidoptera, vol. 1. — Stenstrup (Apollo Books), 441 pp.

YANG C. & CHEN Y. (1995): Lepidoptera: Eupterotidae. — Pp. 366–369 *in*: WU H. (ed.), The series of the biore-sources expedition to the Baishanzu Mountain Nature Reserve. Insects of Baishanzu Mountain, eastern China. — [City not provided] (China Forestry Publishing House), [19] + 586 pp.

Wolfgang A. NÄSSIG & Rolf G. OBERPRIELER

Corrigenda to the “Errata et addenda”

Regrettably, a correction is required for the “Errata et addenda” of our recent catalogue of the genera of Eupterotidae (NÄSSIG & OBERPRIELER 2008a), as published in NÄSSIG & OBERPRIELER (2008b).

Under the Chinese genus *Thermojana* YANG 1995 added to the genera excluded from Eupterotidae, we cited SCHINTLMEISTER (2008) as having synonymised *Thermojana* with *Gangarides* MOORE 1866.

This was based on email correspondence with the author in mid-October 2008, because his book as we cited was only published in the second half of November 2008.

On receiving it, in early December 2008, we saw that SCHINTLMEISTER had, in fact, synonymised *Thermojana* with *Gangaridopsis* GRÜNBERG 1912 (SCHINTLMEISTER 2008: 10, 40, 421), not with *Gangarides* as he communicated to us in October.

Unfortunately our “Errata et addenda” were then already in print, and hence it is necessary to correct this error separately here. Minor amendments are also required in the citation of the book, as below.
